Body of Little Girl. Is Caught in Opening of Drain Pipe in Sweet Georgia district, pay a unique tribute

According to neighbors, however, a mear fatal accident occurred there in much the same manner two weeks previously. A little girl was in the pool while it was being drained, and was unable to swim. She is said to have walked out into water over her depth and went down for the third time before she was pulled from the water by a guard. Artificial respiration was used successfully.

Daylight Bandit Robs
Loan Office of \$140

A new quirk in the banditry rackef was evolved Friday when W. T. Fisher, mannger of the Beneficial Loan Society. 228 Candler building was robbed of \$140 as he was handing the sum to a client negotiating a loan, according to police reports.

The bold holdup occurred during the buxy hour of the day, about 1:15 o'clock in the afternoon, The bandit, a well-dressed white man, entered the office building quarters of the loan company just as Fisher was passing the \$140 to James Mitcham, 205 Josephine street, with whom the loan was heing arranneed, the police were told. The bandit did not stop to make any further search for valuables and in his hurry passed up the locked safe, which contained a large sum, it was stated. Dressed in a white suit and panama hat, the robber ordered Fisher and Mitcham to lie down on their backs, flashing a pistol as he issued his command and scooped up the \$140 that was being passed across the counter.

A savory brown sauce heightened with a dash of mustard and pimento puree gives a new interest to macaroni or spaghetti. Its affinity for cheese is well recognized, both in commercial form and various home-made concoctions.

Plain browned hash makes a snappy supper dish with a pimento flavored sauce. With green peppers they improve a lamb hash immensely just as they are the making of chicken a la king.

Firm pimentos are easily diced, making a pleasing addition to corn soup, creamed celery, smothered onions, green beans, succotash, cheese custard, minced liver, scalloped meat or fish and sauted cucumbers. In cold service it improves potato salad, cucumber sauce, celery mayonnaise, a Spanish onion sandwich, artichokes in oil, chiffonade dressing and eggs in aspic.

wright Not Advised of Change.

Howard P. Wright, deputy prohibition administrator for the northern district of Georgia, said Friday that he had not received any communication from Washington with regard to his status after the transfer of prohibition enforcement on July 1 from the treasury department to the department of justice.

He accepted announcement in Washington, conveyed here in press dispatches, that he would remain in charge as a continuation of his present term of office.

Mr. Wright's position is under the civil service system. He has held his present place since July 19, 1927, before which he was acting deputy prohibition administrator in Florida. He was formerly connected with the department of justice as a special agent.

17 Murder Cases

Are Still Untried

May term of Fulton superior court, criminal division, closed Thursday with 76 untried jail cases, of which 17 involve murder charges, according to announcement Friday by Lewis Jones, calendar clerk in the solicitor-general's office. Of the murder cases, 10 involve colored persons and seven are white men charged with slaying negroes.

The department of justice today an-nounced the names of the deputy pro-hibition administrators who will be in charge of the enforcement districts of the nation after the department takes over the enforcement of prohibition on July 1.

The districts, deputies and head-quarters are: Lowman and Dr. James M. Doran, a treasury chemist, who has served as commissioner of prohibition, were said by treasury officials to have been an ideal team for handling the government's toughest enforcement prob-

ernment's toughest enforcement problem.

For nearly three years they successfully weathered the storms of dry law
enforcement and their administration
of the law was said by Secretary Mellon to have been splendid.

With the shift of prohibition enforcement to the justice department,
Doran remains in the treasury as director of the bureau of industrial alcohol at the same salary he received
as commissioner of prohibition.
Lowman also will remain as assistant secretary of the treasury.

In taking over the work AttorneyGeneral Mitchell said he expects
closer co-operation between United
States attorneys and enforcement officers and announced he would have
no laggards in his department.

In selecting the prohibition administrators, the attorney-general said
changes might occur in the personnel
and this was taken to mean that he
would apply the same principle to his
administrators that he did to United

### **GRAPE JUICE** For Breakfast! Physicians Recommend It

Here are seven of the reasons why Welch's is fast becoming the favorite breakfast fruit juice in many thousands of homes: 1. Welch's is the pure, unadulter-ated juice of luscious Concord grapes, Pasteurized.

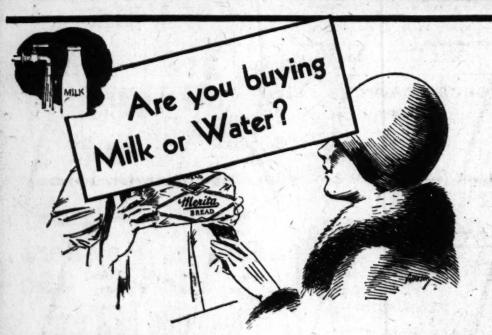

grapes, Pasteurized.

2. Welch's is rich in fruit nourish-22. Welch's is rich in trust noursament and mineral salts, and so perfectly adapted to the human system that it is taken into the blood-stream without digestive effort, releasing quick new energy. It's non-fattening. 3. Welch's is already squeezed.

4. There's no squeezer to clean, no machinery to sterilize. No muss! 5. There's not a particle of waste! 6. In every pint there are six liberal portions, making Welch's only 5c a glass—costs even less if diluted with one-third water, and many prefer itso.

7. It's ready instantly. And temptingly delicious. You simply dilute to suit taste, pour and serve.

t your hotel or club, ask for grape juice on our "club breakfast," and insist on Welch's, or "Ways to Serve Welch's," Free, write to velch's, Dept. B, Westfield, N. Y.

I OU eat more bread than almost any other food . . . Then why not insist on a bread that you can really enjoy eating ... one with a rich, creamy flavor?

When an excess of water is used in making bread it isn't-and can't beso rich and palatable.

It is the large amount of Milk in Merita that makes it so enjoyable.

If you will insist on Merita you will know you are getting milk bread.

Selection of the deputy prohibition administrators who will have the actual work of enforcing the law under their supervision completed the preparations for the change.

Mitchell selected Amos W. W. Woodcock, of Bultimore, as director of the department's prohibition division and Howard T. Jones as assistant director.

While no announcement has been made of plans of the new enforcement officers, reports have generally agreed that the department will concentrate its attention on the wet spots of the number of agents in territories where states take a good share of the enforcement problem and throw them into sections where there is no state law or state co-operation in enforcement.

# BANTAM AUSTIN CAR

Jack Phinizy Motor Company Equipped To Accom-

For months local motorists have been hearing about it and reading about it. And today it will be herethe new bantam Austin, on display for the first time in the showrooms of the Jack Painisy Motor Company. The local coming out party of the bantam Austin car will be one of the biggest events in local motoring history.

tam Austin car will be one of the biggest events in local motoring history.

Car owners of Atlanta have joined with motorists all over the country in welcoming the bantam car. Since the first of the year, the American Austin Car Company has accepted contracts for more than 175,000 bantam Austin cars, and additional inquiries have poured into Austin headquarters every day.

In distributors' showrooms all over the country the bantam car will be placed on public exhibition for the first time. Car owners will be able to see for themselves the sturdy little motor that duplicates the power plant of the internationally famous Austin. They can sit in the comfortable little coupe that represents the finest that American automotive design could contribute, and they can compare this swanky little car, that will meander in and out of traffic and slip into parking spaces where larger cars fear to tread, with the most expensive of the large type motorcars.

This beautiful little car will be delivered here fully equipped, including spare tire, bumpers and windshield wiper for \$518.40; it will do 40 miles on a gallon of gasoline and 20,000 to 40,000 miles on a set of tires.

The bantam Austin is 16 inches marrower and 28 inches shorter than any standard car now in production. Body designs, distinctively American in character, will include a coupe, a sport roadster, and special delivery car for commercial use. Weighing only 1,130 pounds, the bantam Austin will permit amazing economy of operation—the combined cost of gas, oil and tires will be less than 3-4 of a cent a mile.

The Phinizy Motor Company is prepared to take care of a record crowd.

### Salvation Army Head Is Ordered to Chicago

After serving for more than three years as chief executive of the Salvation Army in the 15 states comprising the southern territory, with headquarters in Atlanta, Commissioner W. A. McIntyre Monday will leave for Chicago where he will assume command of the organization's central teritory, with headquarters in the Illinois metropolis.

sitory, with headquarters in the Illinois metropolis.

Orders transferring Commissioner
McIntyre to the mid-west were received during the latter part of this
week, it was announced Friday, and
the executive will leave following a
farewell meeting at the Salvation
Army temple, 54 Ellis street, which
will be held Sunday morning.

During his period of command
over the southern territory, it was
said, the lay membership in the Salvation Army has increased by 200
per cent for every "soldier" in its
sanks in the south; a Boy Scout
movement similar to the organization
of the Boy Scouts of America has
been recognized by the national scout
headquarters, and more buildings for
the Army's work have been obtained
than at any other period in, the history of the Salvation Army in this
section of the country.

### First National Paper Pays Tribute to Parks

Glowing tribute to the memory of the late Lloyd B. Parks, former mem-ber of the board of directors of the First National bank and a leading figure in the business life of Atlanta, is paid in the current issue of The Teller, official house organ of the bank, by George W. Bosman, special representative of that institution. In a special mourning page devoted to the tribute, Mr. Bosman lauds the de-ceased banker, both as a business man, a friend and a financier.

### STEPHEN G. PORTER CLAIMED BY DEATH

PITTSBURGH. June 27.—(F)—
The brilliant career of Stephen G.
Porter, one of the nation's foremost statesmen, is ended.

Mr. Porter died at 2:40 a. m. (eastern daylight time) today in Allegheny General hospital, while messages of solicitude and sympathy poured in from all over the world. Members of his family were at the bedside.

The chairman of the house of representatives foreign affairs committee, leader in the, world-wide fight for control of habit-forming drugs, and dean of the Pennsylvania congressional delegation, lapsed into unconsciousness early yesterday and sank rapidly.

Mr. Porter hecame ill about two months ago. He was stricken while aboard ship en route from London. June 11 he was brought to Pittsburgh from Walter Reed hospital in Washington. Death was due to cirrhosis of the liver.

Representative Porter was 52 years old. He was a prominent figure in republican politics of Pennsylvania for the past 20 years and became a national figure at the close of the World War, while congress and the nation sought solution to the gigantic problems growing out of that conflict.

In a letter to U. S. Senator George, Mr. Cargill makes it clear that Columbus is at a disadvantage in the matter of both hot and cold weather records, because the thermometer used in that city to register the official temperature is not only located in the vicinity of railroad tracks and near a wide expanse. of street paving but is only a few feet from the ground. When the so-called official thermometer reading was 105 degrees in Columbus last Monday, the official temperature in Montgomery, Ala., taken on top of the federal building there, was recorded as 102.3 degrees; and at the same time, in Montgomery, the Maxwell field thermometer, which is near the ground, registered 104.7.

Thoroughly logical is Mr. Cargill's statement that if an accurate record of varying temperatures is desired by the government there should be no discrimination in the matter of locating the thermometer cannot be fooled by such explana--that "some arbitrary height tions. THE STOCKS BAROMETER.

Strong appeals have gone from Hoover administrators at Washington to the executives of big American business to support the stock and commodity markets as fully as possible. In times of advancing prosperity the people have always been pointed to the stock market by the dead man, who, in his estimation was guilty of cowardice against and betragally of the revolution. And now he has followed Essenine's example. It is reported in the Russian papers that an unfortunate love affair was at the bottom of the tragedy. But the poet's letters do not give any indication of the cause of his last act. "I do, not accuse anybody of my death," he writes, "so don't let there way out of my difficulties." He asks was unto the soviet authorities to make life bearable for his mother and sisters and gives a list of his unpublished to be some any Russian revolutionaries. Formaldehyde is fierce stuff to handle, however. Remember that, even if the druggist fails to remind you.

Formaldehyde comes in a standard solution of 37 per cent of formaldehyde in water and methyl alcohol. Methyl alcohol is the deadly wood alcohol, so don't get familiar with formaldehyde; always treat it with respect, and you will find it a satisfactory remedy, especially for the feet. The standard solution may become cloudy or throw down a white precipitate. That does not affect the strength of it; it will clear up if the bottle is allowed to stand for a while in hot water.

ROBERT QUILLEN. But hitting back in quick anger, as almost everybody does, whether with brickbats or words, is a trivial business compared with a long-

treasured thirst for revenge.

Hitting back in a flash of temper may cost you nothing more than your dignity, your self-respect and a few fragments of epidermis; but

nursing a grudge and keeping your wounds raw does something to your Study the grudge-bearers you know and without exception you will find them sour and unpopular people who have embittered their own

The chief objection to "getting even" is that it can't be done. While you are planning revenge on your enemy, the bitterness in your heart takes all the pleasure out of life and thus increases the damage you suffer at his hands.

Your malice doesn't hart but merely sours your own existence. You are like a caged animal bruising itself against the bars in an effort to And if your plans succeed and your enemy is delivered into your hands, still you are robbed of profit. He is a whipped and whining crea-

ture, and your soul revolts at the thought of hurting him further.

It simply can't be done, Honey. While planning to get even, you are cutting off your nose to spite your face; and when the day of settlement comes, you find you can't hit a man when he's down. Forgiveness is the easy way out. The mosquito may need swatting, but it doesn't pay to swat him on your nose.

Are Charged.

Thorough investigation of reports that a young girl had been refused emergency treatment for appendicitis at Grady hospital and that the hospital at first had refused to send an ambulance for a woman, who died after suffering from convulsions, until after her physician placed a call for the ambulance, was promised Friday night by Alderman G. Everett Millican, of the 10th ward, chairman of the hospitals and charities committee of council.

Was brought to the hospital a private ambulance. Miss Eason did not want to be admitted to the hospital, and signed a release at the clinic, it was said.

Alderman Millican said that the hospital has no rule requiring persons to have a physician to call up the cases, but that the committee will not contenance any refusal of aid to emergency cases. "The hospital is there to serve the puor people, and we will have a thorough investigation of these matters at the next meeting of these matters at the next meeting of the committee," Mr. Millican said.

NASHVILLE, Tenn., June 27 .-(A)-Complete unofficial returns today

(P)—Complete unofficial returns today from yesterday's referendum election showed defeat for proposed bond issues of \$1,000.000 for a municipal airport, \$150.000 towards a memorial plaza for Tennessee's three presidents an \$150,000 for improvement of the municipal electric light plant.

The voters, however, approved by overwhelming majorities a \$500,000 bond issue for improvement of the city hospital and a \$150,000 bond issue for erection of a junior high school in North Nashville.

The city of Nashville had been called upon to contribute \$150,000 towards the erection of the "President's Plaza" in memory of Presidents Andrew Jackson, James K. Polk and Audrew Johnson. For this purpose the state had authorized a \$150,000 appropriation and the federal government \$300,000.

Objects to Statements in Praise of Waycross-Dr. Abercrombie Replies.

VALDOSTA, Ga., June 27.—H. B. Edwards, member of the house of representatives from Lowndes county, this week wrote Dr. T. F. Abercrombie, state health officer, calling attention to what Mr. Edwards calls press agent matter from the board of health which was recently offered for publication in the papers of the state, expressing his opinion such use of public funds might be regarded as unwisely apent. Mr. Edwards today made public a copy of his letter addressed to Dr. Abercrombie, which is as follows:

Dear Dr. Abercrombie:

A copy of the interview prepared by Angus A. Acree, director of public health education, state board of health, under Waycross date line of June 19, favoring pasteurization of milk, has been received. Permit me to say that, as hard as times are, it seems that public funds sholled be conserved to the fullest extent, and that this interview suggests that this public health education is for the purpose of promoting pasteurization of milk, funds for which (milk education) are provided in the department of agriculture, and while department is doing good work, and duplication of effort and expenditure should, by all means, be guarded against.

Your reference to Waycross as the only town in Georgia that can guarantee, etc., dees not seem to be conched in mild enough language, and it might be well to leave some of these affairs of a purely local nature to the local boards of health and not try to promote a public sentiment by "previous is above all others, through pasteurisation, which makes for monopoly.

### VET BILL PASSAGE **CONSIDERED CERTAIN**

Favorable Sentiment Develops in Senate for House Substitute.

WASHINGTON, June 27 .- (UN) led administration support of the lifted house World War veterans'

maion measure and American Legion dorsement of the bill 'irtually astrod tonight a Hoover victory in the hite House-congressional controlly over veterans legislation.

A lavorable senate attitude toward a Johnson-Swick pension measure used by the house vesterday developfollowing a conference between resident Hoover and majority floor ander Watson, and further indorsement of the house measure by Director and T. Hines, of the veterans' buan in an executive finance committee hearing.

rank T. Hines, of the veterans' burean in an executive finance committee hearing.

Following these developments the inance committee decided not to report the Walsh-Connolly bill, which raises the disability allowances of the Johnson bill from \$12 and \$40 to \$20 and \$60 a month. Instead, the committee heard in executive session John Thomas Taylor, legislative agent of the American Legion, who read to the committee a qualified indorsement of the Johnson bill from the legion commander. O. L. Bodenhamer.

The legion commander's telegram listed two objections to the bill. "Our request for an extension of time in which to bring suit on insurance claims is not met nor is the comptroller taken out of the bureau as we requested," he stated, urging the committee to modify the measure to include these requests,

"I am sure that veterans and the American people will as a whole be happy to see this immediate relief for our disabled." he continued. "The legion is unselfish and sincere in its desire for speedy action."

The committee is expected to take action tomorrow on the Johnson measure or the Walsh-Connolly bill and from all indications it was believed the Johnson bill, with possible slight modifications will receive a favorable committee report.

The senate plans to bring up the

### **Army Colonel Refuses** Brigadier Generalship

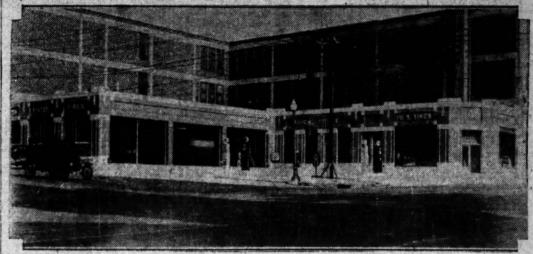

WASHINGTON, June 27.—(P)—
Brigadier General Herbert Deakyne,
assistant to the chief of engineers, became a colonel in the army today at
his own request, although eligible for
retirement as a brigadier general.

His voluntary sacrifice of rank was
made that he might continue to contribute to the army his experience in
the river and harbor improvement
program now under way.

Commenting upon it Secretary Hurley characterized Deakyne as a "good

CHICAGO, June 27,—(P)—Tocsin calls to America to prevare for peace were delivered today by a veteran British fighting man before the convention of Rotary International at the final day's session. Admiral Mark Kerr, of the British royal navy (retired), C. B., M. V. O., gave American Rotarians what he termed an eleventh commandment:
"Thou shalt not go to war."
"Were America to say to nations of the world (fight, and you get no help of any kind from us)." Kerry said, "then peace might be assured.
"You cannot shave a lasting peace while minds of men think of war. Let Rotary and the American press unite to spread this gospel.

Government Agents Prohibit Natives From Wearing Gandhi Caps.

BOMBAY, June 27 .- (A)-The Gandhi campaign against the use of British cloth, involving the picketing of shops and the spinning of cotton on small native spinning wheels, today was challenged by authorities in the Madras presidency.

Government agents prohibited the wearing of the Gandhi caps-white cotton head-coverings adopted as the

cotton head-coverings adopted as the nationalist symbol—and acted against the use of the wheels.

The spinning wheel has been one emblem of the Mahatma Gandhi 'civil disobedience movement. When the Mahatma was interned in Yeroda prison at Poona he took along his small wheel and thousands of his followers, when balked in a march by the police, have sat down in the road and spun briskly to pass the time. So industriously have the Gandhists spun that their output for individual use, coupled with their picketing of shops, has seriously injured trade in British cloth.

The boycott of British goods in Madras presidency is said to be increasing, with the nationalists planning to begin a house-to-house campaign tomorrow.

At Ahmadabad 108 picketers were arrested around the Gujerat college, but police agreed, after a prolonged conference with Vallabhai Patel, nationalist leader, not to interefer in the future with peaceful picketing of the college. The arrangement is said to be the first of its kind between police and the nationalists.

Five street car lines will resume use of the bridge within the next few days, it was announced Friday by officials of the Georgia Power Company.

They were rerouted to permit reconstruction of the bridge. The lines affected are the Ponce de Leon-West View, Luckie-Grant street, East Hunter-Magnolia street, Magnolia street, and West Fair street routes.

The first three of these lines will return to the old routes Sunday, while the West Fair and McDaniel street lines will begin operation over the new vladuct July 1. Their downtown routings will be as follows: Ponce de Leon, Walker-West View, over Peachtree, Forsyth and Mitchell streets; Luckie-Water Works, Grant street-Grant Park, Forsyth street from Carnegie Way to Hunter street; Magnolia street, East Hunter, along Mitchell, Forsyth and Marietta streets, returning over the same route: West Fair street (July-1) to make the loop as formerly by way of Mitchell, Forsyth and Broad streets, to Mitchell; McDaniel street (July 1) Whitehall, Forsyth, Marietta. Broad and Mitchell streets, to Forsyth street. In resuming the old routes, all cars on these lines will pass directly in front of the new Union railroad station, affording an additional service for the convenience of travelers.

The return to the old routes is expected to restore to normal the congested traffic condition which has existed on Broad street due to the addition of these lines to those ordinarily running on this thoroughfare. The return to the Forsyth street route is not expected to increase the burden of traffic on that street, it is said, as she lines affected were only removed from it in the immediate vicinity of the viaduct, and with the exception of a few blocks on either side of the span, which these lines will again traverse, no additional traffic will be placed upon Forsyth street by their return. erated, will divert whatever insurance funds it receives as damages towards mproving the unit.

There are 212 negro patients who must be moved back to the institution, it was said. They will be moved as soon as possible and the construction department of Atlanta will begin work at once on reconditioning the building.

The \$6,000 fund will replace the building in the same condition it was in before the fire and will still "be a veritable fire trap," according to Mr. Millican, who warned members of council that the institution needs fire escapes, elevators and other improvements which will adequately equip it to perform the service expected of it as a negro hospital.

No money has been provided to replace the damaged X-ray equipment, which was said to have been a total loss.

### Fifty-Fifty Club Is Entertained By Mrs. Jones

Members of the Fifty-Fifty Study Club motored to the Berry schools last Wednesday, where they were entertained by Mrs. Wilbur Moore Jones at her picturesque home on Berry circle.

Being the club's annual original day, an interesting program was given, each member contributing something entirely original in poetry and short story writing, evidencing some splendid talent among the membership. The most outstanding example of originality was a poem, "The Parable of the Raindrops," by Mrs. J. G. Senu. Luncheon was served at noon, after which guests were carried on a sight-seeing tour over the many beautiful roads, viewing with amazement the wonderful work of Miss. Martha Berry in bringing to pass her life's dream, Berry schools.

this delicious bome-made mayonnaise from the South

Dip a heaping salad spoonful. Did you EVER see such a fluffy, golden mayonnaise before? Taste it. Heavenly! It looks and tastes just as the best home-made does. It is SO different from the bought kind. There's an interesting reason for this.

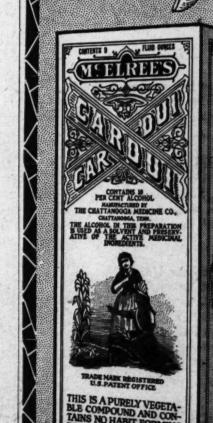

Years ago, a Southern woman became fam-ous for her salads. Always she made her own mayonnaise. The bought kind, though it saved a world of trouble, wouldn't do! It had too much mustard, or it was runny— utterly unlike the creamy, golden ambrosia that mayonnaise ought to be.

Friends raved over her salads—begged her to sell them mayonnaise. Well, it resulted in a model kitchen that makes this food de-light for them and for you.

The yolks of strictly fresh eggs are beaten— beaten—beaten—for a period that would make an athlete's arm sche. Lemon juice and seasoning are added. You have real home-made mayonnaise without getting hot and bothered about it.

# Bob's Famous Clubs, Left in Rush, To Arrive on Next Boat

### LITTLE ROCK TO PLAY NIGHT BASEBALL

### **CALAMITY JANE** AND COMPANIONS LEFT BY BOBBY

King of Golfdom Forgets Clubs as He Rushes for Boat.

SOUTHAMPTON, England, June 27.-(AP)-Bobby Jones sailed for home on the liner Europa today, but the golf clubs that rendered him such glorious service in winning the British amateur and open championships didn't sail with him.

didn't sail with him.

In the excitement of saying goodhye to innumerable friends Bobby left
the clubs behind in a London hotel.
They were discovered 15 minutes after
he had left for the station and a page
boy dashed off in pursuit with them,
only to arrive just in time to see the
train pulling away from the platform. From the station they were
dispatched to Southampton, but here
again they just missed their owner
as they arrived 10 minutes after the
Europa had got under way.

Bobby will get his sticks shortly

Bobby will get his sticks shortly after he arrives in New York, however. A friend took them back to London and they will start their travels again tomorrow on the boat train for the Aquitania, which docks in New York about 24 hours after the Europa.

Bobby's clubs have caused him more trouble recently outside of tournaments than they have in actual

Over a year ago his bag of clubs was stolen from his car in New York city. They had been taken by three small boys to whom golf clubs were just funny looking sticks with metal and wooden knobs on one end.

The boys tried to sell their loot to a garage foreman who had heard of the hue and cry that rose when Bobby's precious implements disappeared. The garage man, John Jope, returned them immediately.

### Bobby "Crashes" Congressional Record.

WASHINGTON, June 27.—(P)—Robert Tyre Jones, of Atlanta, Ga. today broke into the Congressional Record.

Record.

A warm tribute to the world's most famous golfer was paid in the house by Representative Ramspeck, the member from Bobby's home district. Ramspeck recalled that "Bobby" had won 11 major golf titles in the past 10 years, including his recent victories in Great Britain.

"Bobby Jones is admired most and is loved most for his modesty and saneness and the manner in which he wears his fame," the Georgian said.

### Big Guns Praise Bobby Jones.

NEW YORK, June 27.—(P)—Singing the praises of Bobby Jones, five star American players returned aboard the Mauretania today from the golding wars abroad. On board were Leo Diegel, MacDonald Smith, Jim Barnes, and Horton Smith, professionals, and George Von Elm, of Detroit, former national amateur champion.

Diegel seemed to express the feelings of the entire crowd when he said of Jones, winner of both the British amateur and open titles:

"He is without question the greatest golfer who ever lived."

### Miss Collett Beats Maureen Orcutt, 1 Up

BUFFALO, N. Y., June 27.—(R)—Glenna Collett, national women's champion, won her match with Maureen Oreutt in the semi-finals of the Buffalo Country Club's annual women's invitation tournament here today. The champion was one up on the 18th hole.

hole.

Miss Collett was two down at the end of nine holes but she rallied magnificently on the second nine.

Miss Orcutt outdrove her opponent by 10 to 20 yards going out. Miss Collett required 43 for the first nine holes, compared with a 36 which she turned in during earlier stages of the tournament.

### Carnera Is Okay, In N. B. A. Territory

CINCINNATI, Ohio, June 27.—(P)
Primo Carnera, Italian beavyweight,
is ineligible to compete in boxing exhibitions in states under the jurisdiction of the National Boxing Association, the N. B. A. executive committee announced today.

Carnera was barred following an alleged framed bout in California, but since his appearances against Kayo Christner and George Godfrey numerous boxing promoters have asked for a ruling on the Italian's status.

As an extra added attraction for the benefit of the Bilk Fund for Boxing Fans, Wayward Boye, who lost to one of the Singer midgets on a foul, thereby achieving the distinction of landing the lowest blow ever struck in the ring, is doing these measures this morning. Notice that when Wayward writes he employs many dashes. Wayward writes dashes better than anything else.

The greatest forward step Atlanta has made since the W. & A. railroad was completed will be celebrated today when the Forsyth street viaduct is opened to traffic.

The Constitution building and Rich's store thereby are annexed to Atlanta again.

Gee, it will feel good to be back in the old town once

For months employes at these two establishments have been carrying emergency rations and earth induc-tor compasses when making trips to and from work.

But for the mixed blessing of the rad-dio we would have been cut off from civilization completely.

A telegram was received last night by Frank Neely, of Rich's, from Dick Byrd as follows: "Congratulations, old man; know how glad you must be to get back in touch with the world."

THE MEMPHIS BASEBALL MEETING.

Which brings us around to the meeting of the Southern league directors in Memphis. What a conference that was! Yeah!

Since Jimmy Hamilton sold all the good horses in the Mobile stable, and has nothing but flea-bitten plugs left, the directors locked the doors and forbade any more sales.

Furthermore, the stable has been put on wheels and ordered rundled around the league. Glue manufacturers and dairymen have been ordered barred from all parks.

The directors figured that putting the Mobile club on the road would tend to equalize the chances of the other seven to improve their standing and give the Chicks and Pels more of a battle. Thus was the split season issue settled painlessly.

Furthermore, by way of condemning the high-handed tactics Jimmy Hamilton in wrecking his club, the league voted him a bonus of \$2,500.

REWARD OF PATIENCE.

Look at the Yankees today. While men slept the Yankees plugged along taking two out of three and finally got up with the big boys. The progress of the Yanks this season is a demonstration of the value of steady toil as opposed to recurrent spells of furious fighting and loud snoring.

ADD HORRORS OF GOLF.

Dealers in golf supplies report a big swing toward shorts for men. They mean these sawed-off, big bottomed pants that expose freckled shanks and rusty, lumpy knees to the elements. Of all the unsightly spectacles nature affords, a man's unadorned legs take whatever prizes are offered.

A telegram bearing the fine Italian handiwork of Frank tanton, Jr., came to this desk yesterday saying:

### CRACKERS WIN; RETURN TODAY FOR TWIN BILL

Rally in Ninth Brings Three Runs and a Victory.

Atlanta's Crackers, having staged a comeback in the past two days, come home today for two games with the Bears. The games, originally scheduled for Mobile, come to Atlanta through the league action of Friday wherein all Mobile home-games were transferred to the road. The Crackers, who were to return home Monday and enjoy an off-day, will play Mobile a, double-header today and meet them in a single game on Monday. The double-header begins at 2:15 this afternoon. The regularly scheduled Mobile series opens Tuesday and continues through July 4. All of which should be a great help to the Crackers.

### Max Flays Ring Board For Condoning Fouls

Responsibility For Epidemic of Low Blows Is Charged Directly to Gotham Commission.

By Frank Getty,

NEW YORK, June 27.—(UN)—Before sailing for Germany tonight aboard the S. S. Bremen, Max Schmeling, heavyweight champion, laid responsibility for the current epidemic of fights which end in fouls squarely at the door of the New York state athletic commission.

"When a commission protects a fighter as Jack Sharkey was pro-tected: when it fails to punish him in any way after he has hit foul; when it makes it possible for him to fight again for the world's cham pionship within three months, is it any wonder there are so many fouls?" asked Schmeling.
"I bet you," and here the serious young German leaned over and

tapped me on the knee to emphasize his point, "I bet you, that if Sharkey had been punished for fouling me as another fighter not under the commission's protection would surely have been punished, there would have been no foul in the Godfrey-Carnera fight at Philadelphia

HERE'S A THOUGHT.

It is idle to say facetiously that fighters cannot think, for if they could not they never could stage these histrionic fouls which are rapidly driving the boxing game to a possibly well-warranted end.

Max Schmeling, at any rate, has some thoughts on the subject.

"The public complains," said the German, "and they are right. But whose fault is it, after all? The public elects the officials who appoint the boxing commission. Then the commission deliberately protects a fighter, as they have Sharkey.

"If the commission had made an example of Sharkey as they would have would have would have would have would have been ficial effect in ending this business of fouling. But they punished him not at all. What must other fighters think?"

**GALLANT FOX BUCKS FATES** AT AQUEDUCT

History of Dwyer Stakes Is Replete With Upsets.

NEW YORK, June 27.—Will the Dwyer, which will be run off at Aqueduct on Saturday, furnish as big a surprise as it did last year when Great Coat fairly threw mud on the reputation of Blue Larkspur by beating him out for that rich prize?

Will turf history repeat itself and some other colt check the winning streak of Gallant Fox, a four-time winner this season, as Purchase did to Sir Barton in 1919? The distance is one mile and a half.

UPSETS FREQUENT.

The history of the Dwyer stakes, particularly since it has been run off under this name—in other years it was called the Brooklyn Derby—is replete with upsets and keen contests.

It was in this event that Man o' War for the first time and the only time was fully extended, in 1920, when he conceded 18 pounds to John P. Grier and beat him out under the whip by a length,

The other event in which Man o' War felt the sting of the whip was the race for the Saratoga Special, when Upset beat him—his only defeat.

Although Man o' War is pounds and pounds the best, Johnny Loftus, his rider, found so many pockets during the running, a la Coltiletti, that when he finally pulled to the outside and tried to overhaul Upset, the distance was so short that Loftus, in his hurry to make amends for his blunder, pulled his gat, as jockeys say, and stung him.

NO MISTAKES.

and stung him.

NO MISTAKES.

But in the race for the Dwyer Stakes there were no mistakes or

staces there were no mistaces overors.

The struggle was a keen and bitter one and the race was truly run. Man o' War, next the erail, made the running with John P. Grier by his side. And thus they raced the mile and a furlong distance—that was the distance for the race in those days—to the and

tance for the race in those days—to the end.

It was in the final furlong when the weight began to tell against Majo War, this because of the great concession to his rival, that Chrence Kummer, not willing to take any chaces of losing the race through overconfidence, pulled his whip, hit Man o War twice and the super-horse that had been racing head and head with John P. Grier, drew clear and won by a length.

Quarter Cracks -Hamper Whichone.

NEW YORK, June 27.—(A)—Whichone, Harry Payne Whitney's star three-year-old, will not start in the Dwyer stakes at Aqueduct, Trainer Tom Healey said today. The colt has two quarter cracks which will prevent him from meeting Gallant Fox for the second time this season.

PLAYING THE GAME.

Don't try for speed first, try for accuracy. After you have learned to put the ball exactly where you want it then you can practice putting it there with some speed. \$12 Wrightsville Beach

### Ex-Duke Star Hero In 'Movie Plot' Story

Bill Werber Gets Chance When Yank Shortstop Breaks Finger and Sub Fails.

By Ralph McGill,

You say that in real life the young fellow never gets a chance to be a hero, and only in the movies do they do it?

Shake hands with Bill Werber, of the Yanks.

You say that the movie plots showing how the star was ill and the raw youngster stepped in to occupy the spot are just the bunk?

Then meet Bill Werber, of the New York Yankees.

A few days ago the word came out from the Yankee office that Bill Werber, one of the Southern conference baseball stars at Duke in the spring just passed, had been sent to Albany after reporting to the Yan-kees at the end of his college career.

The Yankees had been in search of

a shortstop to aid Lyn Lary. In a deal they tobtained George Weustling from the Detroit Tigers, letting Mark **QUARTER-FINALS** 

Koenig go in the deal.

And then Lyn Lary broke a finger. And Weustling proved unsatisfactory. Bill Werber, who was getting ready to take the night boat to Albany, was called into the infield.

Bill Werber, who was getting ready to take the night boat to Albany, was called into the infield.

WERBER PLAYS.

Werber broke in with the Yankees, still the most famons ball club in the world so far as prestige goes, in the second game of a double-header last Wednesday. He singled twice.

He drew a laugh from the stands with that first single. He was on first loss with Babe Ruth up, the menacing Babe, and the Babe hit a home run.

Bill Werber was so excited, the

DEFENDING CHAMPIONS.

The easy summer Mack's Athletics and McCarthy's Cubs fell heir to in 1929 will not be repeated in 1930. The Athletics should win again and the Cubs have a better chance than any other single club, but the latter margin is extremely slim with the Dodgers and the Giants on the trail.

The main reason for the big change is the improvement the Yankees and the Senators, especially, in the American, and the same uplift on the part of the Dodgers and the Giants. The Brooklyn club is the most improved outfit in baseball over a

The Athletics are still the class of baseball. The Cubs have proved their class by pounding along in the face of a double disaster—the loss of Carlson and the injury to Hornsby. Both defending champions can be counted on in the rougher going that will come later.

ABOUT TILDEN.

Bill Tilden's tennis game is almost as good as it ever was. What he has lost in the way of speed and dash is almost matched by his greater experience and control. The hard handicap that Tilden has to face is the toil of the years taken in the closing matches of a hard tournament. He might be favored to beat even a Cochet on the first or second day. But as one passes 35 or 36 one doesn't recover quite as quickly from weariness—not only physical weariness, but also the nerve strain.

When you recall the fact that Tilden was a first-class tennis

player 16 years, even 18 years ago, you get some idea of how long he has made those wiry legs carry him over the ground.

Tilden has been a better tennis player this year than he was a year He proved how wide the gap was between the Tilden and Johnston of other years and our younger stars of today in the Van Ryn match. Van Ryn isn't our best young tennis player, but he is first-class, and yet he was no sort of a match tor the veteran.

PAST AND PRESENT HISTORY.

When Bobby Jones and James Braid tackled Harry Vardon and Ted Ray there was almost a 40-year link in championship golf. These four men had won 23 national championships and the only pity is that J. H. Taylor could not be included. Vardon and Braid were winning championships before Jones was born.

Most arguments of golf greatness center around Vardon and Jones. Vardon was king of the past—Jones king of the present and at least a

Not even the great Vardon ever had any such eight years as Jones has known from 1922 to 1930, and this has been against a greater bulk of hard competition than the old-timers knew when golf was limited in

I asked Mickey Cochrane, of the Athletics, what he thought of the present-day ball. "One day," he said, "I think it must be a piece of rubber, But the next day some pitcher proves that it might be a rock. I don't see them hitting good pitching all over the lot."

Mickey rates Al Simmons, of the Athletics, as the most dan-gerous pinch-hitter in baseball. "Put him in a tough spot where runs are needed and he comes through as well as any man I ever

Announcement of Werber's release to Albany and his subsequent appearance in the Yankee line-up was one of the things criticized.

PECULIAR BUSINESS.

Baseball is a business dependent on the public for existence yet the owners often resent the fact. Or seem to except when appealing for support for the home team.

They take the attitude, in most in
chases are their own private business and that they may manipulate as they will and keep the details from old John Public, the man with the price of a grandstand seat.

All of this seems very incongrtous indeed when the same owner pleads for the support of his club as being of the support of his club as being the business are their own private business and that they may manipulate as they will and keep the details from old John Public, the man with the price of a grandstand seat.

Cochrane didn't care to compare the speed of Johnson and Grove of the support of his club as being the business are their own private business and they man and they man all over saw, day in and day out," is the Cochrane estimate.

Cochrane didn't care to compare the speed of Johnson and Grove of only saw Johnson in 1925," he says, "and he had been around its years at that time. So I couldn't have seen him at his best. CHICAGO, June 27.—(P)—Colonel Robert Isham Randolph, president of the Association of Commerce and head of its "secret six" committee on crime, today said that the illicit liquor trade, born of the prohibition act which he termed "absolutely unenforceable," was the major cause of crimes of violence in Chicago.

Halts Steel Suit

YOUNGSTOWN, Ohio, June 27.—
(P)—L. A. Manchester, chief counsel for the Youngstown Sheet & Tube Company, killed himself today at the moment of the opening of court for the third day of trial in the injunction suit to prevent merger of the Youngstown Steel Corporation.

The suicide caused abrupt adjournment of the trial after a dramatic episode in the Mahoning county common pleas court. July 8 was set as the date for resumption of the hearing.

It was several minutes before newspapermen and spectators learned what had taken place. Manchester's death occurred at 8:55 a. m., just five minutes before court was scheduled to open. ### J. H. Gresham, Retired Police Officer, Dies

John H, Gresham, 69, retired At-lanta policeman, known affectionately in the department as "Uncle John," died suddenly at his home, 325 Glen-dale avenue, N. E., Friday afternoon. Despite the fact that he had been sick six months, he was thought to be improving and his death came unex-pectedly. He was retired May 16, 1928, because of illness. He was born in October, 1860, at Calhoun and was a railroad man before entering the police service, March 31, 1901. Ac-cording to Chief of Police James L. Beavers, he was one of the most popu-lar and efficient men on the depart-ment.

ment.

Funeral services will be held at 4 o'clock this afternoon from the Edgewood Baptist church, with the Rev. L. B. Crantford officiating. An honorary escort of fellow officers will be present and the pallbearers will be from the police department. Interment will be at Calhoun Sunday, the funeral cortege leaving the chapel of Blanchard Brothers at 6 o'clock in the morning.

ing.
Officer Greshan is survived by his widow, Mra. Lylla Gresham; a son, John T. Gresham; a daughter, Mrs. D. L. Echols; a sister, Mrs. A. W. Ballew, and a number of grandchildren.

WAR RESOURCE DRAFT WASHINGTON, June 27.-(P)-

Atlanta during the past few days of hot weather.

"Concrete suffers in the summer and asphalt is damaged by cold weather." Mr. Donaldson said. "What we need is an all-weather pavement. I believe weather conditions damage pavement nearly as much as the wear from heavy traffic."

WASHINGTON, June 21.

President Hoover today signed the resolution creating a commission to study the question of drafting all the nation's resources in war time except labor.

The commission is to consist of four members of each the house and sentence and the secretaries of war, payr.

members of each the house and senate and the secretaries of war, navy, agriculture, commerce, labor and the attorney-genaral. It is expected to propose an amendment to the constitution to permit the government to take over property and otherwise to equalize the burdens of war.

The measure was sponsored by the American Legion and other veterans organizations but was modified to meet objections raised by the American Federation of Labor. The subject of labor conscription was dropped as a result.

Objections raised by industrial interests resulted in another amendment, under which the commission will not go into the question of conscripting private property without any profit to the owners. The act leaves open the question of owners profiting or not from federal use of their property. In event it is drafted in war time.

Speaker Longworth is to name the house members, and Vice President Curtiss will name the senate members. The commission is to file its report with President Hoover not later than December, 1931.

start his second double play in three days.

When Lyn Lary's finger gets well he may have nothing to do but sit on the bench and twiddle his fingers. Bill Werber will hardly move out to Albany.

His showing is an unusual one. Yery few collegians break right into the big show and stick. A few do, a very few who can play as Frankie Frisch did. He came right in from Fordham. There are others, of course, but not many.

The thrill of the day was the outcome of the Mangin-Austin match. Here were two young internationalists, each making his first definite hid for a Wimbledon championship. Mangin found Austin a stern opponent, but proved his superiority before a crowd of 10,000, which included King George and Queen Mary. Other results of today's play were: wemen's Singles—Mrs. Helen Wills Moody defeated Miss M. Canters, of Bolland, 6-0, 6-1. Miss Helen Jacobs, of California, defeated Mrs. W. D. List, of England, 6-0, 6-1.

Fordham. There are others, of course, but not many.

Bill Werber may not stick but he looks great across a three-day stretch. The Yankees are in the thick of the pennant fight and his break-in was not an easy one.

An Old Complaint

Is Fought to Finish.

An old, old complaint of an old-fashioned brawl in New York Thursday wherein Bill Werber was an innocent factor.

As most baseball offices do, the New York Yankee office had been surrounding all news of trades and deals with the utmost secrecy and in some cases issuing unwarranted and mislending statements.

Ed Barrow, business manager, resented criticism of his methods with his fists and then apologized, expressing "iprofound regret." A new secretary was placed in charge of contacts with the press.

Announcement of Werber's release to Albany and his subsequent appearance in the Yankee line-up was one of the things criticized.

On Certain U. S. Fruit WASHINGTON, June 27.—(P)—proposed embargo by Great Britain or apples from every section of the United States between July 7 and tified grades, was made known today at the British embassy. The state department was notified.

The proposed graham-

m ho sense a retaliation against the recently enacted United States tariff act.

Under the embargo all United States applea, except the barreled States applea, except the barreled grades of "faney" and "faney No. 1" and the boxed grades of "extra faney" or "faney" would be prohibited, and even these these would be excluded unless bearing a certificate from a properly authorized inspector of the department of agriculture stating that the shipment contained no other apples than the grades named. Sir John Joyce Broderick, commercial counselor at the British embassy, said today he had been notified from London that such an order was proposed under the British destructive insects and pests act. He added, however, be had not yet received a cable saying the embargo order had been enacted.

### **Business Outlook** Portends Dullness

NEW YORK. June 27.—(P)
Dun's review tomorrow will say:
The week which practically closed a half-year of readjustment developed noting fundamentally new in the commercial and financial situation. Movements were of the same keneral character as those which long since became familiar, and experienced observers do not look for changes of deep significance at this senson. Some gains continue to be made in certain quarters and there even are instances of conspicuous activity, but such phases remain the decided exception and are largely obscured in a broad survey of conditions. One of the chief points of strength is the fact that corrections of anytholesome elements are taking place, and among the most important of these is the bringing about of an improved status in supplies. With a different basis of demand existing now, production at last year's rate obviously could not be sustained, retrenchment in manufacture being essential to the working off of accumulated atocks of goods. Hence, curtailment of outputs, although always temporarily unsettling when of extensive scope, is a necessary part of the present period of rehabilitation and recovery. Through that action a more solid foundation should be laid, with an ultimate check to the protracted decline in commodity prices. The latter trend has as yet shown no signs of ending.

to 18 points.

The opening was steady at an advance of 2 to 10 points on a renewal of yesterday's buying movement, which was probably encouraged by the fairly steady showing of Liverpool and some rather less favorable private crop reports from the southwest referring to the effects of recent high temperatures in some sections. The old October sold at 13.45 and the new December at 13.30, but the rallies of some 00 to 80 points from the low levels of the week, appeared to have eased the technical position of the market. This was reflected by a falling off in demand and trading later was quiet with prices working gradual-

selling.

Liverpool cables said that foreign buying and covering had been supplied by realizing in that market. Port receipts 6,976 bales, United States port stocks, 1,679,755. Exports 5,618 making 6,634,681 so far this season.

SPOTS DECLINE AT NEW ORLEANS.

NEW ORLEANS, June 27 .- (A)-NEW ORLEANS, June 27.—(P)—
The cotton market, after a moderate opening bulge of 6 to 8 points due to favorable cables and advance in silver, gradually eased off on some show of weakness in the stock market and a few rains and somewhat lower temperatures in the northwest. The decline carried values down 23 to 26 points from the early highs. Sentiment among ring traders appeared to be bearish and even the usual demand from shorts covering was lacking.

The market was steadier after midsession and gradually recovered 13

new crop months on shorts covering. The general market closed steady at net declines for the day of 4 to 13

net declines for the day of 4 to 13 points.

Loss of Point and a Half Shown by Index of Prices

BY JOHN L. COOLEX.

Associated Press Financial Writer.

NEW YORK, June 27.—(P)—The bears were back on the job in the stock market today. Perhaps it was too much to expect that prices could close/higher three days in succession these days: at any rate, they did not and the index, which had established the record of advancing on two successive days—Wednesday and Thursday—for the first time this month, finished the dull session a point and a half lower.

Rallying tendencies at the opening quickly gave way to another decline. The familiar tactics of hammering two or three stocks were employed as usual the weakness spread throughout the list, although the market was extremely dull, an afternoon upturn eliminated most of the losses, but pressure was again applied in the final dealings and prominent issues/were down 1 to 3 points.

The quietness of the trading was the day's chief feature. Sales aggregated only a little more than 2,000,000 shares, the smallest in some time, but the market's dullness, coupled with the success of bearish operations, indicated rather forcefully that important support was absent. The laterally, almost entirely on covering for the short interest in these days of uncertainty, is taking its profits as it goes.

The late rally, almost entirely on covering for the short interest in these days of uncertainty, is taking its profits as it goes.

Commodities were irregular. The grains made a fair showing, both wheat and corn closing fractionally higher, while cotton eased 10 to 16 points. Sugar made narrow advances

Call money was s'eady at 2 per cent, the renewal rate, for the banks were withdrawing funds in preparation for the heavy month-end dividend and interest disbursements by corporations. Other forms of credit were likewise stationary.

North American and Southern Railway were among the day's most vulnerable stocks, each breaking about 7 points to establish new lows for the year, the former at 89 1-4 and the lafter at 90 1-4, and closing 3 and 5 points lower, respectively. The short interest also devoted considerable attention to stocks like United States Steel, American Can, Johns-Manville and General Motors, but the selling attracted limited offerings. Numerobs rails, notably New York Central, Atchison, New Haven and St. Louis San Francisco, sold off sharply, making incomplete recoveries. The day's reports of railroad earnings last month continued unfavorable.

Stocks losing 1 to 3 points net included American Can, American Telephone, General Motors, General Electric. Consolidated Gas, Radio, Westinghouse Electric, New Haven, Atchison and Union Pacific. United States Steel, after selling nearly 3 points lower to 1531-2, closed at 1553-8, off 7-8 on the day and about 2 below the high of the morning rally, which ranged roughly between 1 and 3 points in miscellaneous leading shares.

VIRGINIA BEACH. Va., June 27.

(R)—Slower marketing of the tobacco crop over a longer selling period as a ste toward securing more uniform prices throughout the season was urged here today by A. B. Carrington, Danville. Va., president, before the 30th annual meeting of the Tobacco Association of the United States.

The tobacco association head remarked a recent tendency to market the crop of tobacco very rapidly, which he said was not in the interest of the growers. He said slower selling would tend toward a balanced market. Mr. Carrington praised efforts being made by the governments of Virginia and North Carolina to impress on farmers the importance of diversifying their crops to the extent of raising sufficient foodstuffs and fodder for home consumption.

The 1929 tobacco crop in the bright districts of Virginia, North Carolina, South Carolina and Georgia was reported by Mr. Carrington as the largest ever marketed from these districts. The total amount reported sold was 833,556,041 pounds, at an average price of \$17.92, out of which he estimated the net of the 1920 crop in the bright districts was 750,200,437 pounds, allowing 10 per cent for resales.

The crop in the same section, he said, in 1928 was 738,893,187 pounds net, sold at an average of \$17.27; in 1927, 709,900,261 pounds net, average \$24.18; in 1926, 5 \$7,057,077 pounds net, average \$24.18; in 1926, 5 \$7,057,077 pounds net, average \$24.18.

In spite of these large crops in the last several years, said Mr. Carring. 571,732,967 pounds net, average \$20.41. In spite of these large crops in the last several years, said Mr. Carring-ton, the average has been kept fairly uniform. He accounted for a lower average in 1928 and 1929 by the fact of the much larger crops sold those average in 1928 and 1929 by the fact of the much larger crops sold those years.

The quality of the 1929 crop was as a rule good, he said, especially in the old belt sections of Virginia and North Carolina, with fairly good quality in the eastern Carolina's crop was not so good as usual and sold for a lower average than other sections.

The Georgia crop was above the average than other sections.

The association president reported that the organization was in touch with the South Carolina legislature when in session, and was instrumental in preventing annulment of the law requiring tying up of tobacco. He said the association also had taken up the matter of grading and tying up the matter of grading and tying up the crop in Georgia.

NEW YORK, June 27.—Early efforts to depress prices again failed to bring out any considerable volume of liquidation in Friday's session. On the contrary, price recessions brought a renewal of the investi-Dallas spot, steady, 15 points down to 11.00.

BEER & CO.

NEW YORK, June 27.—There was a series of wide and erratic fluctuations in Friday's market on small volume, total sales for the day amounting to only 2,071.

Too shrea. The opening was strong, but selling pressure was immediately exerted and most active stocks declined very easily toward yesterday's lows.

The treding raily which developed failed to reach the morning highs and the succeeding dip arried below the lows on the first reaction. This same procedure was repeated with another raily and dip and then after recovering moderately from the lows of the day the market went dead and frading became very dull. Around half post two the beat raily of the day appeared and prices ran back in some cases close to their morning highs, but the buying fasiled to hold and profit taking at the close caused a number of further sell offs.

LIVINGSTON & CO.

NEW YORK, June 27.—Renewed pressure on the sails and weakness in a few miscellaneous industrials and stillities interrupted the promising advance which was under way at the close Friday, but the same upport which checked selling on other occasions this week was agath in evidence and prices rallied to the afternoon to show only a small liverage loss on the day. Professionals are closely acrutinizing the rail list in the hight of recent unfavorable reports for stucks with shaky dividends. Southern Railway broke very budly under this nort of pressure, notwithstanding the fact that the regular dividend was declared only a few weeks ago and will not come up for consideration again until September. St. Louis and San Francisco also showed special weakness for the same reasons. North American broke asons T points in further reflection of the recently announced plan to increase the authorized capitalization from 10,000,000 to 20,000,000 abrees, which is regarded as foreshedwing some beavy stock financing.

JACKSON BROK. BORREL & CO.

begin to appear in July it would be logical to expect a somewhat lower price level. It is quite generally argued nowadays that prevailing abnormally low interest rates will attuniste demand for bonds and that a buying movement will spread gradually into preferred stocks and then into common stocks. This procedure is logical but it does not follow that chasp money will have a stimulating effect immediately.

NEW YORK, June 27.—There is little we can add to what we have said in recent letters. The immediate situation is acconfused that an opinion on the course of the market over the next week or so can have no logical basis. "It would only be a guess and we believe that commitments in stocks should be based on something better than guesses.

From our interpretation of fundamental conditions it is easy to say that we expect sound stocks to be selling materially higher before the end of the year. What is far less certain is whether they may not sell somewhat lower during the next month. From the announcements of important vacation shut-downs to take place is July fit is obvious that general business activity next month will be materially lower than the market has already discounted this fact.

Cotton Letters.

NEW ORLEANS, June 27.—July liquidation, July tenders and the depression in the grain market and in New York stocks, plus a favorable weekly weather and crop government review, made for lower price levels in early week, values for new crop deliveries falling to near the lowest prive levels reached thus far this seasop. There after, natil today, the market bulged sharply, due to short covering, an improved tecinical position, light offerings, high temperatures inland, and the want of rain in the central belt.

Today the market was somewhat reactionary in early morning, for while cables were a shade belier than due, stocks and grain were jower, there was rain in the fouth Atlantics and the Texas Panhandle over night, and weekly statistics were moderately hearlah. However, there was no rain in the central belt, and the market received good support on the dip, recovering somewhat later in the assistion.

LIVINGSTOR & CO.

NEW YORK. June 27.—After a strong opening on quite active short covering in July the market sold off under local and southers aciling, infiguees the first face and the southers aciling, infiguees the first face and the strong and the strong property of the strong property in the afternoon and closed 15 to 20 points the afternoon and closed 15 to 20 points down in a quiet market. ORVIS BROS. & CO. NEW YORK, June 27.—Profit-taking in Friday's cotton market caused prices to turn lower but at no time could the market be described as week. The little reaction was natural after a sharp raily in the president.

### Listening to Jokes

RENO. Nev., June 27.—(P)—Having to listen to jokes of famous radio comedians entertained by her hustand at their Park Avenue apartment in New York disgusted her English butler and drove away her friends, Mrs. Virginia Carson Elwood complained. She was granted a divorce here yesterday from John Worden Elwood, vice president of the National Broadcasting Company, on grounds of cruelty. Mrs. Elwood, the daughter of a wealthy Eau Claire (Wis.) lumberman, testified as to alleged neglect and indignities on the part of her husband.

AT HARBOR GRACE, N. F., June 27.
(P)—At least 12 persons were killed, 30 fishing vessels were lost and thousands of dollars' damage done by a thunder and lightning storm which ranged over this vicinity last night. Communications were disrupted and it was not until this afternoon that the outside world could be told of the disaster. Huge hail stones caused here of a wealthy Eau Claire (Wis.) lumberman, testified as to alleged neglect and indignities on the part of her husband.

### 5 Million Sent To Aid

CINCINNATI, Ohio, June 27.—49
M. J. Fleming, deputy governor of the Federal Reserve bank, Cleveland, said \$5,000,000 in currency had been brought here today by airplane from Cleveland and placed in the Federal Reserve branch to add assur nee to the banking situation in this city.

Six armed guards accompanied the money in the plane.

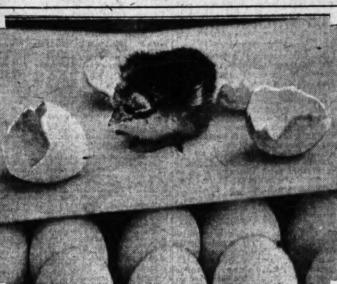

The currency was brought here following the closing yesterday of the Brotherhood of Railway Clerks National bank and the closing 17 days ago of the Cosmopolitan Bank & Trust Compcny.

mountainous waves in toward the town.

Many persons were injured either by lightning or falling woodwork as they knelt by their bedsides, praying for safety. Lightning also destroyed the telephone and lighting systems soon after the storm began.

The airplane Southern Cross, which successfully negotiated the dangerous electrowest crossing of the Atlantic ocean, had left here only a few hours before the storm broke. It was at the Harbor Grace airport that the Southern Cross landed after crossing the ocean and it bopped off from here for the storm broke. ### Heat Blamed as Little Chick Hatches in Atlanta Market

A Constitution cameraman snapped this little orphan biddie in the Sixth street market Friday a few minutes after it had evolved from what J. W. Houseworth, the proprietor, thought was a perfectly good breakfast egg. Mr. Houseworth blamed it on the heat. Last Tuesday A. J. Alford, Lawrenceville poultryman, brought a craise of eggs to Mr. Houseworth's market. The bright rays of the sun beat in violent ending.

NEW YORK, June 27 .- (AP)-Death and destruction rode the wings of storms in parts of the United States and Canada last night and today, taking 50 lives, injuring many persons and causing property damage of hundreds of thousands of dollars. Thirty persons were killed at Brockville, G in the explosion of a charge of dynamite under the drill boat J. B. King. It was believed the blast may have been caused by lightning. High winds and a swift current balked divers in their search of the sunken boat and only one body had been recovered tonight.

Ignited by lightning during a heavy thunderstorm late yesterday, a large storage tank of the Vecuum Oil Company cracked and boiled over after burning for several hours. Flaming oil poured from the tank and spread in all directions.

Officials of the Vacuum Oil Company today estimated that their loss would exceed \$150,000. It was expected the fire would continue to burn for another 20 hours. persons and causing property damage

and automobiles dotted flooded high-ways for miles in all directions.

The storm broke suddenly along the eastern seaboard and down the St.
Lawrence river valley after a day of heat which caused prostrations in many localities.

As far south as Atlanta, Ga., high winds and beating rains damaged buildings and crops.

VESSELS SUNK

In Harbor Grave alone, five persons were struck and killed by lightning as they either dashed for cover occast in their homes. One man was killed while he was telephoning and three fishermen lost their lives when their boat was struck.

Thirty fishing vessels in the harbor were sunk as the high winds whipped mountainous waves in toward the town.

Ten-Cent Soup Bone

Is Back Among Us

KANSAS CITY, June 27.—(P)—
The dime soup bone is back.

Retail meet prices had dropped to the point here today where the bargain hunting housewife could purchase a bone for the soup pot at 10 cents, in comparison with the price of a quarter not long ago.

ST. JOHN'S, N. F., June 27.—(P)
The fishing village of Lumsden, which suffered serious damage last November in the tidal wave that swept the Burin peninsula, today was recovering from a hail and rain storm that took three lives and sank 30 boats.

Virtually every pane of glass in the village and many roofs of the fishermen's dwellings crashed in under the weight of the hail stones, which a message to the minister of posts here described as weighing 10 cents, in comparison with the price of a quarter not long ago.

### New Fox Feature Is 'Rough Romance'

Opening today, the Fox theater is presenting an ideal hot weather antidote in the George O'Brien feature picture, "Rough Romance," the scenes of which are laid in the snow-clad big woods, and in which O'Brien is a lumberjack, Antonio Moreno is a trapper, and pretty Helen Chandler is a trapper's daughter. These three furnish the elements of hero, heroine and villain, and are ably assisted by a cast of merit. Not only are there thrills aplenty in the picture, but the comedy element is not neglected. With the feature picture goes an Our Gang comedy. "Shivering Shakespeare," in which the "rascals" do things to the immortal writer's characters which are not strictly orthodox.

a splendid show, in which comedy,
thrills and pretty girls play a promi-

ment part.

Because of the near approach of the Fourth of July. Enrico Leide has arranged a patriotic ensemble of American airs, which he calls "America Triumphant," for the overture of the week.

# BURGESS CHILDREN'S STORIES

Can you think of anything more humiliating than for a father to be asked how many children he has and not be able to tell? It was that way with Jerry Muskrat. One of the first questions that Peter Rabbit asked him when he learned that Mrs. Muskrat had a family, was, how many babies were in that family. Jernay babies

when he learned that Mrs. Muskrat had a family, was, how many babies were in that family. Jerry Muskrat pretended not to hear.

"I say," repeated Peter, "how many babes have you, Jerry Muskrat?"

Jerry could no longer pretend not to hear. "Plenty." said he, remembering what Mrs. Muskrat had said.

"How many is plenty?" demanded Peter.

"Enough." replied Jerry.

By Thornton W. Burgess.

Tis well for him whose pride is lost To get it back at any cost.

### No, said Jerry. All sac has said is that there are plenty. Now you know as much about them as 1 do. Plenty doesn't mean much. It may mean one thing today and another thing tomorrow, depending on duced." The next story: "Jerry Is Introduced." Milk Fund Benefit Revue

of kiddie shows, the "Toytown" revue day, the last day of the benefit "Toyat Loew's Capitol theater, and to con-tribute to that most wonderful of causes, the Scottish Rite Crippled tion, the Capitol is showing a splen-

given all this week at the Capitol as a benefit for the milk fund, under the auspices of the Atlanta Masonic

Club. Members of the Pi Pi sorority, dressed as milkmaids, have collected many hundreds of dollars in their milk pails from delighted audiences leaving the theater after each performance—audiences delighted with the truly remarkable work done by these local children on the stage, and audiences delighted at the opportunity to show their appreciation by giving to so worthy a cause.

There will be the usual three performances today and then the "Toytown" revue will be a matter of theatrical history. It will be important history, because it is immeasurably ahead in excellence and entertainment value anything of a similar character hitherto attempted. Chester Hale, famous New York producer, who came here early in the week just to see here early in the week just to see the show and whose first assistant

Miss Ruth Alpert, trained the chil-dren and produced it, was genuinely astonished at the professional excel-lence of the performance. The Masonic Club expects its goal, of enough money to provide all the milk the little patients out at the Scottish Rite hospital can drink in a year, to be more than reached after the final performance tonight. The theater has been crowded all week, and, inspired both by the wonderful show and the appealing cause, the members of the audiences have been generous in their gifts to the Pi Pi

This reduced rate was offered the public with only one thought in mind and that was that the liberality of our rates would inevitably establish in the mind of the public an appreciation of our service that would result in a volume of patronage which would be of service to the city of Atlanta and profitable to ourselves."

Four separate checks of comparative fares charged by the Black & White and Yellow taxicabs by representatives of The Constitution Friday disclosed a neck and neck fight between the companies on the short haul, or under two-mile trips, with the Black and White cutting under the Xellow as the distance increases after the second mile.

On identical trips from Forrest road and Linwood avenue, over Moreland avenue and Glenwood to South Bouleward and thence to a point where a motor oil sign stands almost at the top of the hill this side of the entrance to the Federal prison, the net Yellow cab charge was \$1.45 against a net charge of \$1.20 made by the Black and White.

EARLY RELIEF SEEN FOR WATER SHORTAGE

Pipe for construction of a new water main on Peachtree road from Buckhead to the county line and for installation of a cross-connection between the Wieucca road and the present inadequate Peachtree road main was ordered Friday by C. M. Holland, Fulton county purchasing agent.

The new water main will be installed to relieve an acute shortage of water on Peachtree road beyond Buckhead. A 16-inch main will be laid to Piedmont road from Buckhead, and a 12-inch main from Piedmont road to the county line, to aid the present sixinch main, which is "bled to death" by heavy demands.

The Fulton county commission was notified Friday by L. H. Parris, sec-

notified Friday by L. H. Parris, secretary of the Wieucea Water Company, that permission will be granted to connect the privately owned Wieucca main to the Peachtree road main to furnish temporary relief. Under the Wieucca Water Company contract, Wieucea Water Company contract, that company expects the extension to become its property, and expects to obtain the benefit of the tapping fees and other privileges, Mr. Parris said.

In a letter to the commission Friday Harold C. McKenzie, president of the Security Loan & Trust Company, said his company purchased the right to tap the main on Roxboro road owned by E. Rivers, and that the company was notifying Mr. Rivers at o deed his main to the county subject to the company's ownership of the privilege of taking two taps to supply a subdivision.

a subdivision.

Construction of the Wieucca road cross-connection will start immediately, as the six-inch pipe needed is in stock in Atlanta, and the 16 and 12-inch pipe for the Peachtree road main will arrive by the time the cross-connection is installed, it was

CHICAGO FLIERS NEAR **WORLD ALTITUDE MARK** 

CHICAGO, June 27.—(P)—Bent on breaking the world's non-stop re-fueling record, the Hunter brothers, John and Kenneth, pilots of the City John and Kenneth, pilots of the City of Chicago, soared on tonight, a weary but determined pair. utes, now held by the St. Louis Robin, the Hunters must fly until after sunrise Sunday.

Thus far the fliers have conquered many difficulties. The gasoline tank on the right wing of their monoplane began leaking two days ago. They were forced to shut it off. This necessitated refueling at night. The gasoline now is taken into a storage tank at the left side of the cabin. It is then pumped into the tank in the left wing of the plane. Since both tanks now containing gas are on the left side of the ship, the weight, the pilots said, has made the craft lopsided and difficult to handle.

Another difficulty has been the replacing of spark plugs, a hazardous job that brings one of the pilots within a few inches of the propeller. Still another hazard has been encountered with blustery winds—less fearful, however, than the fatigue which once sent both pilots into momentary oblivion, only to awaken as the ship.

however, than the fatigue which once sent both pilots into momentary oblivion, only to awaken as the ship plunged earthward.

Despite difficulties, the pilots dropped notes today saying they were "feeling fine" and that the 200 horse-power Wright Whirlwind motor was still performing well.

Spring at Hunnieutt

Why was it he could not recollect? least he was sure that in some way the pile of gold, the place where it lay and the subtle aroma "she" he had been pursuing, the memory cture of the white woman, and he, himself, were extricably connected by the tie of a forgotten past. If the woman belonged there, what better ace to search or wait for her than the very spot which his broken recollections seemed to assign to her? It was worth trying. So he set out through the trees in the direction of the plain.

At the outskirts of the forest he met the Arabs returning in search of Achmet Zek. Hiding, he let them pass. Once he discovered a small herd of antelope and satisfied his hunger on a fat yearling. Then thirst lured him by the shortest path to a river's refreshing waters. Today was gone. No tired and sought the shelter of a comfortable tree.

Morning came and again he descended to the river's brink. There he found Numa, the lion, ahead of him. The big fellow was lapping the water greedily.

with a low growl of warning glared at the intruder. But Tarzan, guessing that the beast had just fed, paid him little attention. Stopping a few yards above the tawny cat, he dropped upon his hands and knees and plunged his face into the cool water. For a moment the beast continued to eye the man; then he resumed his drinking and man and beast quenched their thirst side-by side, each apparently oblivious of the other's presence. After a plunge in the river, Tarzan set off again toward the ruined

And when he came upon the spot, great was his surprise and consternation, for the yellow metal had disappeared. The earth trampled by the feet of horses and men gave no clew. It was as though the ingots had vanished into thin air. The apeman was at a loss to know where to turn or what aext to do. Everything seemed to elude him—the pretty pebbles, the yellow metal, the "she," his memory. Tarzan was disgusted. Well he would memory. Tarzan was disgusted. Well, he would go back into the jungle s.d look for Chulk. For two days he moved rapidly in a long, easy trot, then taking to the trees with the agility and speed of a small monkey.

With an average of better than 92 per cent for completing their scheduled routes during the first five months of 1930, Interstate Airlines' night mail planes, flying between Chicago, St. Louis and Atlanta, and between Nashville and Atlanta on day schedule, covered a total of 248,443 miles from January 1 to June 1 of this year, according to an announcement from the headquarters office at Tennessee's Sky Harbor, at Murfreesboro. No injuries occurred during scheduled flights, it was pointed out, although one pilot ("Pop" Wise) was injured while ferrying a plane between airports. During May the total mileage flown was 59,456 miles; April, 58,735; March 45,811; February, 42,247; January, 42,194. During January, February and March, only day mail planes were in operation on the Interstate routes. Passenger service probably will be resumed some time in the near future, it was stated.

William F. Russell, deposed commissioner of police, and that he received sums varying from \$500 to \$15,000 as loans or other payments from members of Mayor Thompson's cabinet and other politicians. The investigators learned today that besides his own margin account and the partnership with Russell, Lingle maintained a third brokerage account under a fictitious name. Police Friday night were probing a nystery shot that was fired from the test room of the Pedigreed Dairy

Company at 65 Haynes street, S. W., and barely missed W. O. Harden and his father, T. J. Harden, of 176 Walker street.

The two men were on the porch of their home, which faces the test room of the dairy. Officials of the dairy told Call-Officers Charlie Floyd and Arthur Daily that the test room was locked and that no one was allowed there after dark.

On investigation it was found that the door was locked, but that the shot the door was locked, but that the shot permanent injunction, entered into the

On investigation it was found that the door was locked, but that the shot had been fired through the window, smashing the glass. The bullet then passed between the two men sitting permanent injunction, entered into the latest theory of Lingle's murder to-day. Speculation centered about a report that he had been killed because he failed to deliver the immunity he on the porch and lodged in the wall.
Mr. Harden cannot account for the
incident, stating Friday night that so
far as he knew he and his father had may nave promised after accepting money. Closing of the dog tracks, up-held by the supreme court several weeks ago, cost their gangster pro-prietors an estimated \$1,000;000 a

### Officers Seize Auto **But Lose 10 Gallons**

Two motorcycle officers, dressed in overalls, arrested an alleged liquor wholesaler Friday night but lost half of the whisky load, which they intended to confiscate, when an unidentified negro took 10 gallons and fled while the arrest was being made.

Motorcycle Officers F./O. Bishop and R. G. Pollard arrested C. R. "Slim" Crider, 18, of Sandy Springs, at Walker and Larkin streets. When arrested he was in a new light sedan and had stopped near the curb where a negro is alleged to have been accepting an order of five gallons of the illicit corn. Bishop climbed on the running board of the car and Crider started his car in an effort to escape. Bishop is then said to have struck him with a billy to make him halt. While this way in progress the negro is reported to have grabbed five more gallons of whisky, making a total of ten and to have escaped. negro is reported to have grabbed five more gallons of whisky, making a total of ten, and to have escaped. There were only 20 gallons in the car at the outset, according to the officers. Crider later Friday night posted a \$500 bond on a charge of violating the prohibition law. His car was confiscated.

### Five Are Arrested In Stabbing Probe

Five persons, three of them women, were held at police station Friday night, and Irving Socoloft, of 43 Decatur street, was given treatment at Grady hospital for a stab wound in the head, alleged to have been inflicted by a screw-driver while he was a guest in an automobile in which the five prisoners were riding.

Socoloft told Call Officers Ed Norwood and M. O. Evans that he was crossing the Pryor street viaduct when a car driven by Mrs. J. C. Shields drew to the curb and he was invited to go for a ride. At Wall street and Central avenue, he stated, two men and two girls entered the machine.

CHICAGO, June 27.—(\*\*)—The federal government today took a hand in untangling the background to the assassination of Alfred Lingle, \$65-a-week newspaper reporter, who played the stock market with a reputed six digit account, and apparently lost heavily last fall. His murder June, 9th by gunmen is still unsolved, but possible ressons for his death were apparently nearer discovery.

Interested in the reports of the slain reporter's inflated income, Mrs. Myrtle Tanner Blacklidge, internal revenue collector, sent agents to Chicago banks and brokers today to search for Lingle's assets. She has been unable to find an income tax return by Lingle.

The state's attorney, saying that Lingle's financial status be announced to the public on Monday, indicated he would question every public official and racketeer involved in payments or loans to the reporter.

Agents and informers have already told the prosecutor Lingle maintained a joint brokerage account with William F. Russell, deposed commissioner of police, and that he received sums varying from \$500 to \$15,000 two men and two girls entered the machine.

The men are then alleged to have grabbed him, threatening to take him to the woods and "beat him up." The car had reached Washington street by this time and Socoloff began to cry out for help. One of the men, it is said, then told Mrs. Shields to drive down a side street where his cries would go unheeded. In attempting to turn into Glenn street her machine collided with another car, and the Socoloff succeeded in getting away and phoning the police.

Mrs. Shields was arrested and

and phoning the police.

Mrs. Shields was arrested and charged with violating Section 3190 of the city code, reckless driving, and disorderly conduct. She gave her address as a downtown hotel and her bond was fixed at \$500. The others held were B. C. Joyner, 29, of 237 Richardson street, charged with disorderly conduct and stabbing, whose bond was fixed at \$100; Hazel Sentell, 23, of 237 Richardson street, charged with disorderly conduct and stabbing, bond fixed at \$100; Nell Hood, 20, of 574 North Boulevard, charged with disorderly conduct, bond set at \$50, and Emory Meyers, 34, of 165 Patalaka street, charged with disorderly conduct, bond set at \$50, conduct, his bond being set at \$50.

### Police End Meeting And Arrest Preacher

Police Friday night broke up an open-air meeting under way in a lot at Pine and Venable streets and arrested Rev. J. A. Callahan, 49, 109 West Alexander street, the principal speaker, on a charge of disorderly conduct. He will have a hearing before the recorder at 2:30 o'clock this afternoon.

According to the police, residents of the neighborhood, principally wage-earners, objected to his remarks on the ground that they tended to cause trouble between workers and employ-ers, his talks dealing largely with

Thursday night he was warned by Captain Grover Fain, who had been informed of the tenor of Callahan's remarks, to cease his stump speeches. When it was reported that he was speaking again Friday night Officers Jack Wingate and L. E. Ratledge were sent to bring him in. He was released on his own recognizance and sent home under police protection. sent home under police protection.

cases have been continued until after the summer vacation of the courts.

Anne Burlak, white woman organizer, was released several days ago when she posted a bond of \$3,000. Her bond and that of Brady were originally fixed at \$4,000. The four others in jail and the amount of bonds required for their release are Mary Dalton, white, \$10,000; M. H. Powers and Joe Carr, white, \$10,000 each, and Henry Storey, negro, \$1,000. Dr. Luther R. Hogan, well known Bible student who occupies the chair of psychology at Oglethorpe University, will speak before the Men and Women's Bible class of the Ponce de Leon Baptist church at 9:30 o'clock Sunday morning, it was announced Friday by W. Grady Miller, president of the class. Dr. Hogan will speak on "Evolution."

### Police Start Probe Of Florida Flogging

Discovery by a watchman of a smoke-filled lobby in the Connally building, Whitehall and Alabama streets, shortly after 11 o'clock Friday night, called out firemen from four downtown companies, who found the source of alarm to be an overheated electric motor in the kitchen of the Famous cafeteria, in the basement. The damage was negligible. OCALA, Fla., June 27.—(P)—Officers today investigated the flogging last night of E. R. Barrett, T. J. Anthony and Nelson Brown, Barrett's nephew, at Burbank, east of the Oklawaha river.

The assailants were not identified.

The report reaching here stated that

Sealed proposals will be received here until 10:00 A. M., C. S. T., July 29, 1930, and then opened for the construction of the Air Corps Tactical School building at Maxwell Field, Alabama. Plans and specifications may be obtained from this office by deposit of \$25.00.

A blaze of undetermined origin late Friday afternoon caused heavy and the specifications small office at 10 and 14 Ashby street and in the rear of 910 Hunter street, according to reports at central station. The fire, which tarted in the residence of A. Dechovitz, on Ashby street, quickly spread to the adjoining home of Arthur Smith, and subsequently to an office occupied by W. V. Jenkins.

Representative Almon, Alabama, Accuses Hoover of Causing Impasse.

WASHINGTON, June 27 .- (AP)-President Hoover and the republican administration were attacked today administration were attacked today by Representative Almon, democrat, Alabama, for failure "to put Muscle Shoals into operation for the benefit of the farmers."

"The whole trouble is." the Alabaman asserted, "as is well known to everyone conversant with Müscle Shoals legislation, that President Hoover and his administration are opposed to the government operation of the administration are opposed to the government operation of the

Almon said there remained sufficient time to enact legislation at this session. He urged the house conferees to agree to the compromise offered by senate conferees.

Adding that—under the senate compromise bill the government would keep "its hands on the switch of the Wilson dam power development," Almon said the two democratic house conferees, Quin, of Mississippi, and Fisher, of Tennessee, agree to the compromise. He added the republican members, Ransley, of Pennsylvania; Wurzmach, of Texas, and Reece, of Tennessee, refused.

Almon said that since Reece had gone home to look after his campaign for re-election, he should be removed and another named in his stead.

Reece gave as his reason for opposing the compromise, Almon said, that the president would veto such a bill as the compromise measure. The Alabama representative said the president told him, neither Reece nor any Alabama representative said the president told him. neither Rece nor anyone else "was authorized to say that he would veto this compromise meas-

ure."

Further, Almon said, Hoover expressed to him a desire to see the Muscle Shoals question settled.

Almon said "the secretary of war has refused to sell any part of the power to Muscle Shoals city."

The passage of the compromise measure, he added would help unemployment and agriculture.
